

At a glance

Processor: Intel 8th Generation
Memory: 16GB RAM
Graphics: NVIDIA GeForce RTX2060
System drive: 256GB SSD
Storage drive: 1TB HDD
Operating System: Windows 10 Professional
WaveView Client Software: Pre-installed

Wavestore client workstation

Wavestore's Client Workstation has been designed specifically for use with Wavestore's WaveView client software for use in today's professional security environments.

Supplied complete with the RTX2060 graphics card from NVIDIA, 16GB of RAM, a 256GB SSD with Windows 10 Pro pre-installed, and a 1TB Surveillance Grade HDD for storage; each Client Workstation is capable of displaying multiple live and playback views simultaneously.

With support for up to four simultaneous monitor connections, the Client Workstation connects to Wavestore Servers via the network and enables powerful day-to-day operation of Wavestore's VMS.

The compact size, with the option to expand as your business needs grow, makes this ideal for maximum space saving without sacrificing power.

Wavestore's WaveView and WaveView Mobile clients

WaveView is Wavestore's free of cost client software which delivers an intuitive interface designed to offer full, yet simple, control of total security solutions. Authorised WaveView client devices can simply access individual or grouped Wavestore NVRs to give users full control of their security system.

The WaveView Mobile application adds mobile viewing capability enabling operators to view and control their system from iOS or Android devices.

WaveView's leading search and playback capabilities allow operators to quickly review recorded images via an intuitive play bar, providing instantaneous access to exactly the right image from any point in time from the recorded data, even over large amounts of stored data.

Export of video evidence

In just three mouse clicks, operators can export clips from multiple cameras simultaneously to a variety of file formats or create a storyboard of events with a sequence of cameras, including virtual PTZ control of 360° fisheye cameras. Authentication and encryption of video and audio content are also supported.

Warranty

All **Wavestore Client Workstations** are supplied with a full five-year return to base hardware warranty.

Key Features

- Pre-installed with Windows 10 Pro and Wavestore WaveView Client Software
- Connect up to four monitors
- Powerful graphics performance
- Five-year warranty

TECHNICAL SPECIFICATION	Client Workstation
Hardware	
Processor	Intel 8th Generation Core Processor (i7-8700k)
Operating System	Windows 10 Professional
Memory	16GB RAM, expandable up to 64GB RAM (4 x DIMM)
Graphics	NVIDIA GeForce RTX2060
System drive	256GB SSD (Windows pre-installed)
Storage drive	1TB SATA HDD
Connectivity	
Networking	1 x 1GbE network port
USBs	4 x USB 3.0 & 2 x USB 2.0 (Rear), 2 x USB 3.0 & 2 x USB 2.0 (Front)
Slots	1 x PCIe x 16 slot, Graphics Card slot
Display	
Maximum display	8 x full resolution 1080P @25ips / 6Mb/sec
Physical	
Form factor	Tower workstation
Hard drive bays	1 x 2.5" SFF & 1 x 3.5" LFF
Dimensions (W x D x H)	175 x 434.8 x 359.9mm (6.89 x 17.12 x 14.17")
Operating temperature	10°C - 35°C (50°F - 95° F)
Operating humidity	5 - 90% (non-condensing)
Maximum weight	11.70Kg (25.7lbs)
Power	
Power supply	365W, 100-240VAC 90% efficient PSU (80 Plus Gold Certificate)
Warranty & Regulatory	
Standard warranty	5-year (see warranty statement)
Regulations	IEC 60950-1, European Norm EN 60950-1, CISPR 22/CISPR 24, EN55022/55024
